FY16 Debt Service on County Issued Debt including Special Assesment Debt and County-Supported Debt Tampa Sports Authority Debt

Total Debt Service \$90.5 Million

EXECUTIVE SUMMARY

On September 30, 2015, the County's total debt outstanding was \$1.01 billion, and consisted of \$926.2 million in County-issued debt and \$81.6 million in debt issued by the Tampa Sports Authority. The outstanding \$926.2 million in County-issued debt consisted of \$301.4 million (30%) in enterprise fund debt, \$63.7 million (6%) in general obligation debt, and \$561.1 million (56%) in non-ad valorem revenue supported debt, including \$65.1 million (6%) in tax-exempt commercial paper.

The County's enterprise fund and general obligation debt continue to be "self-supporting" in that this debt is secured solely by and paid from enterprise fund revenue and ad valorem taxes. Non-enterprise, non-ad valorem revenue bonds are supported by revenues specifically earmarked for such purpose, such as state shared half-cent sales tax and the Community Investment Sales Surtax ("CIT").

Bonds issued to finance construction of the Amalie Arena (a multi-purpose arena and home to the NHL Lightning franchise) are repaid from the County's 5th Cent of the Tourist Development Tax (the "TDT"), which can only be used for debt service on professional sports franchise facilities and for tourism marketing costs. Bonds issued to finance construction of Raymond James Stadium (home of the NFL Buccaneers) are repaid from a portion of CIT¹ revenues, the 4th Cent of the TDT, and payments from State of Florida sales tax rebates.

The County has significant debt capacity remaining and is in compliance with its anti-dilution test². However, all major County revenue streams are being used to either pay debt service or to fund County operations and reserves. Any use of these revenue streams to secure and pay additional debt could impact County operations unless additional revenue sources are identified. One exception is the CIT revenue which was originally levied in fiscal year 1997 for 30 years and may be used only for capital projects. The majority of future CIT revenue has been committed to specific capital projects. The County expects that most of these projects will be debt-financed.

The County has credit ratings on its debt from Moody's Investors Service, Standard and Poor's (S&P), and Fitch Ratings. Each of the three credit rating agencies has assigned the County general credit ratings of "Aaa", "AAA", and "AAA", respectively. These ratings represent the highest attainable credit rating assigned by each agency. According to the rating agencies, the ratings reflect the County's diverse economic base, population growth, property tax base, healthy reserves, and conservative financial management practices. The rating agencies have separately rated other bonds of the County which are secured by specific revenue pledges. These are described later in this report.

¹ This Sales Surtax was approved by referendum, and the proceeds are allocated among the Hillsborough County School District, the County, and the cities of Tampa, Temple Terrace, and Plant City pursuant to an interlocal agreement. The interlocal agreement provides a specific allocation of revenues for debt service and certain other capital expenditures in connection with the stadium.

² An Anti-Dilution test is computed with respect to debt secured by the County's covenant to budget and appropriate from legally available non-ad valorem revenues. This test measures the extent to which the County can use non-ad valorem revenues for debt service on additional bonds in relation to general government services. The purpose of this test is to ensure that the County does not excessively leverage its non-ad valorem revenues.

SUMMARY OF RECENT AND FUTURE DEBT ISSUANCES

When appropriate, the County utilizes its Commercial Paper program to encumber contracts and to provide short-term finance rather than issuing long-term debt. Of the \$926 million in total County-issued debt outstanding on September 30, 2015, \$861 million (or 93%) is financed with fixed interest rates and about \$65 million (or 7%) is financed with variable rate commercial paper. This represents a debt mix that is well-insulated from interest rate volatility. Depending on market conditions, the County plans to vary its short-term debt issuance to lower the County's cost of capital without overexposing the County to short-term interest rate spikes. This objective is reflected in the County's FY15-FY19 Capital Improvements Program (the "CIP") adopted by the Board in September 2014. As part of its funding plan, the CIP relies on a mix of commercial paper and bonds to meet its objectives.

Fiscal Year 2015 Bond Issuances:

Capacity Assessment Special Assessment Refund Revenue Note: On September 3, 2015, the County issued its Series 2015 Capacity Assessment Special Assessment Refund Revenue Note in the amount of \$42,835,000 in order to refund, for debt service savings, its outstanding Capacity Assessment Special Assessment Revenue Bonds, Series 2006. As a result of this refinancing, the County will realize more than \$6.4 million in NPV savings on interest expense over the life of the debt.

Community Investment Tax Refunding Revenue Bonds: On July 29, 2015, the County issued its Series 2015 Community Investment Tax Refunding Revenue Bonds in the amount of \$139,215,000 in order to refinance \$49,500,000 of outstanding commercial paper notes, and \$103,745,000 of its outstanding Community Investment Tax Revenue Bonds, Series 2007. Repayment of the commercial paper notes allowed the County to free up capacity to finance future capital improvement projects, and refunding of the bonds will allow the County to achieve approximately \$7.7 million in NPV savings on interest expense over the life of the debt without extending the final maturity date. The refunding bonds will be repaid from CIT revenues and will be fully repaid by November 1, 2026 when the CIT program sunsets.

Communications Services Tax Bonds: On April 16, 2015, the County issued its Series 2015 Communications Services Tax Bonds in the amount of \$67,800,000 in order to provide funds sufficient to finance, refinance and/or reimburse the acquisition, construction and equipping of a new Public Safety Operations Complex ("PSOC"), new Sheriff's facilities, improvements to various existing fire stations and to new fire stations, and various parks, recreation and other public facilities improvements. The Bonds are secured by and will be repaid from Communication Services Tax revenues.

SUMMARY OF DEFEASANCE AND REDEMPTION OF DEBT:

On September 3, 2015, the County redeemed its Series 2000 Reclaimed Water Special Assessment Revenue Bonds in their entirety. Prepaid assessment revenues received to date as well as cash on hand were utilized to complete the transaction. The Bonds had an outstanding principal balance of \$855,000 at redemption. Also on September 3, 2015, the County redeemed its Series 2000 Capacity Assessment Special Assessment Revenue Bonds in their entirety. Prepaid assessment revenues received to date as well as cash on hand were utilized to complete the transaction. The Bonds had an outstanding principal balance of \$8.1 million at redemption.

CONCLUSION

The County issues debt in accordance with its Debt Policy, adopted by the County Commission, which governs the type and amount of borrowings that are best suited to achieving its financing objectives. On a per capita basis, Hillsborough County debt is comparable to similarly sized counties.

To address short-term capital project funding requirements, the County utilizes its Commercial Paper program. Under this program the Board authorizes short-term borrowings when needed to provide adequate cash flow for active projects. This approach ensures that long-term debt is issued only when needed and is only issued in appropriate amounts. Furthermore, tax exempt short-term debt tends to be the lowest cost financing tool available to local governments resulting in substantial savings to the County. Upon completion of capital projects, the County either uses available cash or issues long-term debt at favorable interest rates to pay off outstanding short-term notes, unless there is an interest rate advantage in keeping short-term, variable rate notes outstanding. The County actively and aggressively monitors market opportunities to restructure, to defease, or to redeem its outstanding debt to reduce debt service interest costs. When legally and economically feasible, County management will use lower interest rate debt or available cash reserves to redeem outstanding debt, thereby increasing revenue to fund County operating activities.

In summary, as confirmed by its credit ratings, the County's financial condition is characterized by strong debt service coverage from pledged revenue, a broad and varied local economy, and strong financial management.

COUNTY CREDIT RATINGS

The County has credit ratings on its debt from Moody's Investors Service ("Moody's"), Standard and Poor's Ratings Services ("S&P"), and Fitch Ratings ("Fitch"). Hillsborough County's general credit rating was upgraded in December 2006 to "AAA" from "AA+" by S&P giving the County general credit ratings of Aaa/AAA/AAA from all three rating agencies: Moody's, S&P and Fitch. As stated in Moody's credit report for Hillsborough County, an improved credit rating reflects continued health, diversity and growth in the County's economy, strong tax base expansion, strong financial administration and a manageable debt position. The County's strategic goal is to maintain general credit ratings of at least A2/AA/AA. All the County's credit ratings as of September 30, 2015 are shown in the following table. The County's high credit ratings are a notable achievement since they generally lead to lower interest costs on debt financings. The County's debt obligations are issued and administered in such a manner as to ensure and sustain long-term financial integrity of the County, and to achieve the highest possible credit ratings.

Hillsborough County, Florida Credit Ratings as of September 30, 2015			
<u>Type of Debt Issue</u>	Moody's	S&P	Fitch Ratings
General Obligation Bonds	Aaa	AAA	AAA
Revenue Bonds supported by the County's share of the Community Investment Tax (CIT)	A1	AA	AA

**2. Outstanding Debt Summary for the
Fiscal Year Ended September 30, 2015**

HillsboroughCounty
GOVERNMENT
Florida

COUNTY DEBT

As of the fiscal year ending September 30, 2015, the County had total indebtedness of \$1,007,819,000 including County-supported debt issued by the Tampa Sports Authority, but excluding County-issued Special Assessment Revenue Bonds (described at the end of this section).

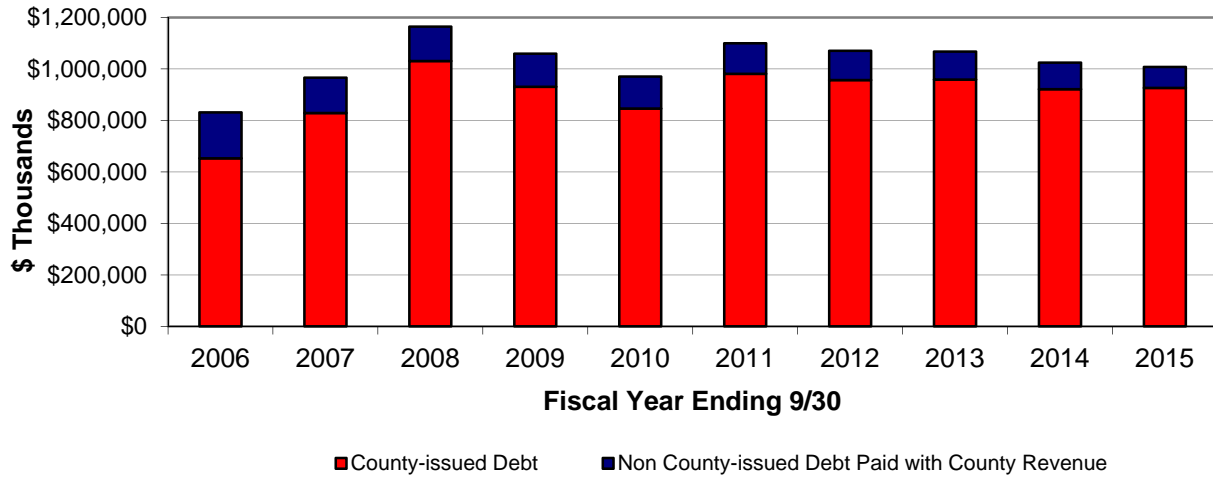

All County Debt is divided into seven categories consisting of:

	Fiscal Year Ended September 30				
	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>
<u>Governmental</u>					
General Obligation	\$72,065,000	\$70,130,000	\$68,045,000	\$65,900,000	\$63,660,000
Limited Ad Valorem	0	0	0	0	0
Non-Enterprise/Non-Ad Valorem	426,475,000	466,490,000	442,640,000	418,220,000	495,995,000

3. Debt Capacity of Selected Revenues

HillsboroughCounty
GOVERNMENT
Florida

DEBT CAPACITY OF SELECTED REVENUES

The Florida Constitution does not limit the amount of ad valorem taxes a county may levy for the payment of bonds authorized by voter referendum. The County is limited by Article VII, Section 9 of the Florida Constitution, however, to a maximum levy of 10 mills per \$1,000 of the assessed value of real estate and tangible personal property for county purposes other than the payment of voted bonds. The countywide millage rate for calendar year 2014 (fiscal year 2015) was 5.7339 mills.

Debt related to rate-based County services, such as water/wastewater utilities and solid waste collection and disposal, does not affect operations because pledges are made only on net revenues (i.e., total revenue minus operating and maintenance costs of the systems). Therefore, debt capacity for these enterprise operations is a function of the adequacy of rates and fees to support outstanding and additional debt.

The County has considerable debt capacity remaining. However, inasmuch as all County revenues are being used to pay debt service, fund County operations or increase reserves, any use of County revenues to secure and pay additional debt could impact County operations unless additional revenue sources are identified.

Appendix B of this report shows calculations of the debt capacity of County major non-ad valorem revenues in relation to current outstanding general fund debt of the County. These calculations serve three major purposes. First, they enable the County to determine its ability to pledge the revenues for additional projects. Secondly, they are used to determine the general debt capacity of the non-ad valorem revenues of the County taking into consideration the constraints of the anti-dilution test required by the County’s outstanding bond issues and interlocal agreements. Finally, the debt capacity calculation provides an indication of the financial condition of the County.

A graph of the debt capacity of major revenues is illustrated below:

The County currently has twelve major non-ad valorem revenues as follows:

- the local government half-cent sales tax,
- the guaranteed entitlement,
- the communications services tax
- the local option infrastructure surtax for community reinvestment (the “Community Investment Tax or CIT”),
- the voted fuel tax (9 cents),
- the local option fuel tax (1-6 cents),
- the county fuel tax (7 cents),
- the constitutional fuel tax,
- the 4th cent tourist development tax
- the 5th cent tourist development tax
- traffic surcharge revenues
- the Indigent Care half-cent sales tax

In addition, the County has a mix of other non-ad valorem revenues. However, these revenues on a stand-alone basis are difficult to pledge as security for a bond issue due to the volatility and uncertainties of collections on an annual basis. Therefore, the debt capacity analysis primarily provides information on the above referenced major non-ad valorem revenue sources.

Many of the non-ad valorem revenues discussed here are limited as to use. For example, the county fuel tax and local option fuel tax are limited to transportation and road improvement related costs, including debt service payments on transportation bonds; the 4th and 5th cents of the tourist development tax are limited to capital construction and maintenance of tourist-related facilities such as convention centers, sports arenas and stadiums; and, the Indigent Care half-cent sales tax is limited to indigent care services. The primary, unrestricted direct revenue sources available as security for a non-ad valorem/non-enterprise bond issue are the local government half-cent sales tax, the guaranteed entitlement, the communication services tax, the community investment tax, and the constitutional fuel tax.

Description of Types of Debt Issued by the County

There are several different types of debt incurred by cities and counties in Florida, including general obligation debt, revenue debt, long-term leases and government loans. To date, Hillsborough County has used the methods summarized below. For a more detailed discussion, see Appendix A.

General Obligation Debt

General obligation ("G.O.") bonds of municipalities, counties, school districts and states are backed by a pledge of the full faith and credit of the issuing entity. This pledge generally is supported by a commitment of the issuer to levy and to collect ad valorem taxes, without limitations as to millage rate or amount, for the payment of principal and interest on its bonds. With the County's excellent "Aaa/AAA/AAA" credit rating, G.O. debt offers the lowest interest cost of any form of county debt. The County is limited by Article VII, Section 9 of the Florida Constitution, however, to a maximum levy of 10 mills per \$1,000 of the assessed value of real estate and tangible personal property for county purposes other than the payment of voted bonds. Because of the impact on property owners, the issuance of general obligation debt in Florida requires the consent of the voters through a referendum. The Florida Constitution does not limit

the amount of ad valorem taxes a county may levy for the payment of bonds authorized by voter referendum.

Revenue Debt: Bonds, Notes and Intergovernmental Loans

Generally, state constitutions authorize either explicitly or implicitly the issuance of revenue debt. Revenue debt may be issued without voter referendum because of a public policy called the "special fund doctrine". The essence of revenue debt is that a particular stream of revenue is designated as the sole source of repayment of the debt. This revenue source may be derived from a specific project or enterprise, a loan program or even a special tax. In the event that such a source proves inadequate or default is otherwise threatened, the issuer is under no obligation to repay the debt from its other general governmental funds.

Debt related to rate-based County services, such as water and wastewater utilities, does not affect operations because pledges are made only on net system revenues.

Fixed compared to Variable Interest Rate Debt

Historically, short-term variable interest rates ("short-term rates") tend to be lower than long-term fixed interest rates ("long-term rates"). Short-term rates promote the assets/liabilities matching principle. However, long-term rates provide debt service certainty and protect against short-term spikes in interest rates. Of the \$926 million in total County-issued debt outstanding at September 30, 2015, about \$861 million is financed with fixed interest rates and about \$65 million with variable interest rates, (i.e. tax-exempt commercial paper notes), resulting in a debt portfolio mix of 93% long-term rates and 7% short-term rates, which is conservative and well-insulated from interest rate volatility. Depending on market conditions, the County plans to achieve a more moderate debt portfolio mix in the future by increasing its short-term debt issuance. The objective will be to further lower the County's cost of capital without overexposing the County to short-term spikes in interest rates.

Debt related to rate-based services, such as water/wastewater services and solid waste disposal, does not affect general County operations as those pledges are made based on available net revenues generated by the specific enterprise.

4. General Obligation Bonds

HillsboroughCounty
GOVERNMENT
Florida

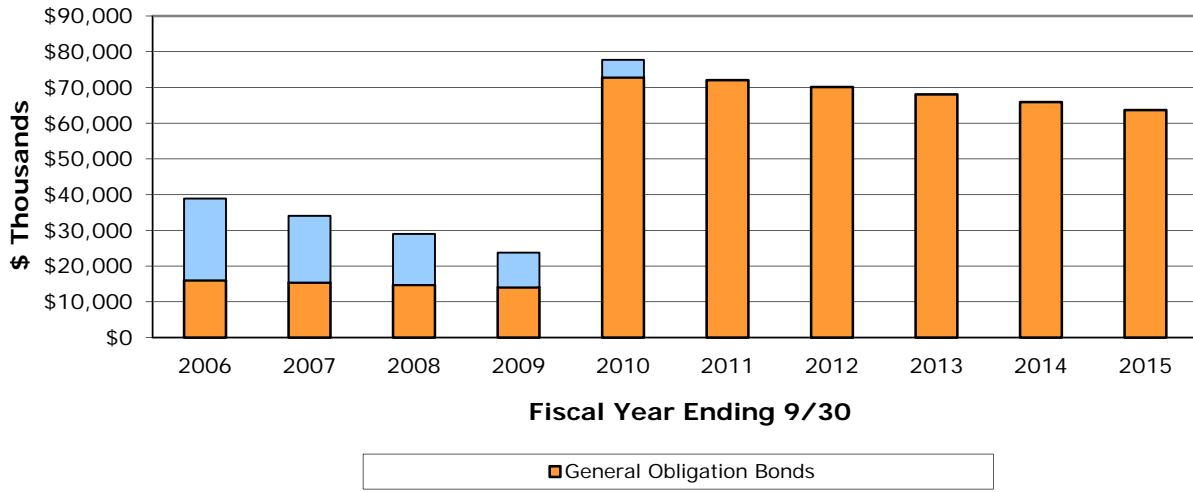

GENERAL OBLIGATION BONDS

General Obligation Bonds are secured by a pledge of the full faith and credit of the County to levy sufficient ad valorem taxes to pay the debt service on the bonds. The County has three series of general obligation bonds outstanding. The General Obligation Refunding Bonds, Series 2002 (Parks) were issued to refund the Series 1993 and Series 1996 Bonds, each of which was issued in the original par amount of \$10 million to fund the acquisition and development of parks. The General Obligation Bonds, Series 2009A and 2009B, were issued to provide additional funding for the County's Environmental Lands Acquisition and Protection Program (ELAPP).

**5. Revenue Bonds:
Non-Enterprise/Non-Ad Valorem**

HillsboroughCounty
GOVERNMENT
Florida

REVENUE BONDS: NON-ENTERPRISE/NON-AD VALOREM

The debt classified as “non-enterprise/non-ad valorem” is supported by a variety of fees, taxes and other County revenues, excluding enterprise system revenues and ad valorem taxes. All currently outstanding debt in this category is tax-exempt. The following overview provides a description of each outstanding issue, the original amount and purpose of the issue, and a description of pledged revenues.

The tax-exempt debt issued under the County’s **Commercial Paper Program** (the “Program”), established in April 2000, is payable from and secured by the County’s covenant to budget and appropriate from non-ad valorem revenues. The County’s borrowings under this Program are also secured by a \$300 million irrevocable direct-pay letter of credit (LOC) from the Bank of Tokyo. Since its inception, the Program has provided cost-efficient, short-term financing for projects until such time as final project costs are known, sufficient revenue is available to support a long-term financing, multiple projects can be combined into a single long-term financing of adequate dollar size, or a favorable interest rate environment exists.

The **Series 2004 Community Investment Tax Revenue Bonds**, secured by CIT Revenues, were issued in the amount of \$90,000,000 to refund \$33.15 million of commercial paper notes originally issued to fund stormwater management projects, and \$42 million of commercial paper notes originally issued to fund transportation projects. The remaining approximate \$15 million in bond proceeds funded new stormwater management projects (\$1.5 million) and transportation projects (\$13.65 million).

The **Series 2005 Tampa Bay Arena Refunding Revenue Bonds** were issued in the amount of \$17,920,000 to refund a portion of the outstanding Tampa Sports Authority Taxable 1995 Special Purpose Bonds, County Surcharge Loan Series which were originally issued to finance construction of the Amalie Arena (formerly known as the Tampa Bay Times Forum, St. Pete Times Forum and as the Ice Palace). The security for these bonds is the County’s covenant to budget and appropriation of non-ad valorem revenue, but the payment source is a surcharge on arena general admission tickets, and the 5th Cent Tourist Development Tax.

The **Series 2005 Court Facilities Refunding Revenue Bonds** were issued in the amount of \$38,305,000 to refund all of the outstanding Series 1999 Bonds originally issued to finance the acquisition, construction, equipping and renovation of capital improvements to court system facilities of the County, and to refund the Courthouse Annex Note and the 700 Twiggs Street Commercial Paper Loan. These bonds are secured by court surcharge revenues, with any shortfalls in this revenue met with the Community Investment Tax. This backup pledge may be released as a security source in the future.

The **Series 2006 Capital Improvement Program Refunding Revenue Bonds** were issued in the amount of \$40,285,000 to refund all of the outstanding Series 1996 Capital Improvement Refunding Revenue Bonds. These bonds are secured by Local Half-Cent Sales Tax revenues and were originally issued to fund construction of Steinbrenner Field (formerly Legends Field), the spring training facility for the New York Yankees, and to fund acquisition of a public safety radio communications system.

The **Series 2006 Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds** were issued in the amount of \$18,270,000 to refund the outstanding Tampa Sports Authority Tourist Development Tax Revenue Bonds (Stadium Project), Series 1997B and to finance the acquisition and/or construction of certain capital improvements to Steinbrenner Field, and a grant to the City of Tampa, Florida to pay for certain capital improvements to the Tampa Convention Center. The 4th Cent Tourist Development Tax is the sole payment source for the Series 2006 Bonds.

The **Series 2006A Fifth Cent Tourist Development Tax Refunding Revenue Bonds** were issued in the amount of \$27,125,000 to refund the outstanding County Interlocal Payments Refunding Revenue Bonds, Series 1998, which financed the Amalie Arena. The 5th Cent Tourist Development Tax Revenues are the sole payment source for the Series 2006A Bonds.

The **Series 2007 Community Investment Tax Revenue Bonds** were issued in the amount of \$191,800,000 to finance the acquisition and construction of transportation and other capital improvements in the County. The Series 2007 Bonds are payable solely from and secured by the CIT revenues. The CIT Revenues securing the Series 2007 Bonds are on a parity and equal status with the County's outstanding CIT Revenue Bonds, Series 2004, and the County's Court Facilities Refunding Revenue Bonds, Series 2005.

The **Series 2008 Capital Improvement Non-Ad Valorem Refunding Revenue Bonds** (Warehouse and Sheriff's Facilities Project) were issued in the amount of \$19,195,000 on May 5, 2008. The Series 2008 Bonds were issued to refund the outstanding Series 1998 Bonds. The Series 2008 Bonds are payable solely from, and secured by, a lien upon, and pledge of, the available non-ad valorem revenues budgeted and appropriated by the County.

The **Series 2012A Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$38,130,000 on May 23, 2012. The Series 2012A Bonds were issued to refund a portion of the outstanding Community Investment Tax Revenue Bonds, Series 2001A (Jail Project), and a portion of the outstanding Community Investment Tax Revenue Bonds, Series 2001B (Stormwater Project). The Series 2012A Bonds are payable solely from and secured by the CIT revenues. The CIT revenues securing the Series 2012A Bonds are on a parity and equal status with the County's outstanding CIT Revenue Bonds, Series 2004; Court Facilities Refunding Revenue Bonds, Series 2005; CIT Revenue Bonds, Series 2007; and the CIT Refunding Revenue Bonds, Series 2012B.

The **Series 2012B Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$51,625,000 on May 23, 2012. The Series 2012B Bonds were issued to refund a portion of the outstanding Community Investment Tax Revenue Bonds, Series 2004. The Series 2012B Bonds are payable solely from and secured by the CIT revenues. The CIT revenues securing the Series 2012B Bonds are on a parity and equal status with the County's outstanding CIT Revenue Bonds, Series 2004; Court Facilities Refunding Revenue Bonds, Series 2005; CIT Revenue Bonds, Series 2007; and the CIT Refunding Revenue Bonds, Series 2012A.

The **Series 2012 Capital Improvement Program Revenue Bonds** were issued in the amount of \$67,445,000 on June 21, 2012. The Series 2012 Bonds were issued to pay off \$50 million of outstanding commercial paper and to fund approximately \$29 million of capital improvement projects approved as part the adopted CIP. The Series 2012 Bonds are secured by half-cent sales tax revenues, but may be repaid in part by CIT Revenues depending on excess CIT capacity.

The **Series 2015 Communications Services Tax Revenue Bonds** were issued in the amount of \$67,800,000 on April 16, 2015. The Series 2015 Bonds were issued in order to provide funds sufficient to finance, refinance and/or reimburse the acquisition, construction and equipping of a new Public Safety Operations Complex ("PSOC"), new Sheriff's facilities, improvements to various existing fire stations and to new fire stations, and various parks, recreation and other public facilities improvements. The Bonds are secured by and will be repaid from Communication Services Tax revenues.

The **Series 2015 Community Investment Tax Refunding Revenue Bonds** were issued in the amount of \$139,215,000 on July 29, 2015. The Series 2015 Bonds were issued in order to refinance \$49,500,000 of outstanding commercial paper notes, and \$103,745,000 of outstanding Community Investment Tax Revenue Bonds, Series 2007. The Series 2015 Bonds are payable solely from and secured by the CIT Revenues. The CIT Revenues securing the 2015 Series Bonds are on a parity and equal status with the County's outstanding Court Facilities Refunding Bonds, Series 2005; CIT Revenue Bonds, Series 2007 (unrefunded portion), Series 2012A and CIT Revenue Bonds, Series 2012B.

PURPOSE
 To refund the Court Facilities Series 1999 Bonds, which were issued to finance capital improvements to the court system facilities of the County and to refund the Courthouse Annex Note and the 700 Twiggs Street Commercial Paper Loan.

SECURITY
 Traffic Surcharges and the Local Option Infrastructure Surtax (Community Investment Tax, "CIT"). The lien and pledge on the CIT revenues that may be released as a security source in the future, is on a parity with the Community Investment Tax Revenue Bonds, Series 2004.

6. Revenue Bonds: Enterprise Funds

HillsboroughCounty
GOVERNMENT
Florida

REVENUE BONDS: ENTERPRISE FUNDS

WATER AND WASTEWATER

The County's water/wastewater bonds are secured solely by a pledge of the revenues of the water/wastewater utility system (the "Utility System"). Utility System debt outstanding as of September 30, 2015 was \$142.7 million.

The \$18,035,000 **Series 2010A Utility Revenue Bonds** (Tax Exempt)⁴, the \$110,265,000 **Series 2010B Utility Revenue Bonds** (Federally Taxable Build America Bonds – Direct Payment)⁵, and the \$21,700,000 **Series 2010C Utility Revenue Bonds** (Federally Taxable Recovery Zone Economic Development Bonds – Direct Payment)⁶ were issued in order to fund \$131 million of the Utility System's \$484 million capital improvement program. At September 30, 2015, the outstanding balance on the Series 2010 bonds was \$142.7 million.

WATER AUTHORITY

In September 1998, a new regional water authority was created. This authority, Tampa Bay Water (TBW), replaced the West Coast Regional Water Supply Authority ("WCRWSA") and issued \$372.25 million in bonds to retire the debt of the WCRWSA. In October 1999, TBW issued an additional \$372,761,143 of Utility System Revenue Bonds to construct new water supply projects. On August 1, 2001, TBW issued its Series 2001A Bonds in the amount of \$309,370,000 to advance-refund a portion (\$287,900,000) of its Series 1999 Bonds. On October 1, 2001, TBW issued its Series 2001B Bonds in the amount of \$238,230,000 to construct new water supply projects. On May 15, 2002, TBW issued its Series 2002 Bonds in the amount of \$108.39 million to purchase a newly constructed desalination facility and to pay outstanding short-term interim loans. As of September 30, 2014, TBW has debt outstanding, including accreted interest on capital appreciation bonds, in the amount of \$1.5 billion. The County's current proportionate obligation to TBW is treated as a current operating and maintenance expense of the County's water/wastewater system and is not reflected as general County debt.

SOLID WASTE

Solid Waste and Resource Recovery Revenue Bonds are secured solely by a pledge of the revenues of the solid waste system. Solid waste system debt outstanding at September 30, 2015 is \$158.7 million.

The **Series 2006A Solid Waste & Resource Recovery Revenue Bonds** (AMT), issued in the amount of \$116,990,000, and the **Series 2006B Solid Waste & Resource Recovery Revenue Bonds** (non-AMT), issued in the amount of \$40,360,000, funded the cost of design, acquisition, construction and equipping of certain solid waste disposal facilities and expansion of the County's resource recovery facility. At September 30, 2015, the outstanding balance on the Series 2006 bonds was \$138.2 million.

On May 8, 2013, the County issued its **Series 2013 (AMT) Solid Waste and Resource Recovery Bond** in the amount of \$25,160,000 in order to finance the costs of acquisition, assembly, initial distribution to end users and asset management of residential garbage and recycling roll carts required as part of the County's newly implemented automated collection system. At September 30, 2015, the outstanding balance on the outstanding Bond was \$20.5 million.

⁴ The Series 2010A bonds are serial bonds.

⁵ The Series 2010B issuance includes serial and term bonds. The U.S. Treasury subsidizes interest on the Series 2010B Federally Taxable Build America Bonds at a rate of up to 35%.

⁶ The Series 2010C bonds are term bonds. The U.S. Treasury subsidizes interest on the Series 2010C Federally Taxable Recovery Zone Economic Development Bonds at a rate of up to 45%.

**7. Revenue Bonds:
Debt Issued by Independent Authorities**

HillsboroughCounty
GOVERNMENT
Florida

REVENUE BONDS: DEBT ISSUED BY INDEPENDENT AUTHORITIES

The Tampa Sports Authority (TSA) has issued debt to finance a multipurpose arena (Amalie Arena, formerly known as the Tampa Bay Times Forum, St. Pete Times Forum and as the Ice Palace) and a community stadium (“Raymond James Stadium”). This debt is primarily secured by certain revenues of the County as described in more detail below. As of September 30, 2015, \$81,625,000 of TSA-issued bonds related to these facilities are outstanding.

ARENA BONDS

Currently the TSA does not have any debt outstanding related to the Amalie Arena (the multipurpose arena). However, during 2005 and 2006, the County issued direct debt (refunding revenue bonds) to defease TSA bonds related to the arena in order to achieve debt service savings. The County-issued bonds are described more fully in the section of this report titled “Revenue Bonds: Non Enterprise/ Non-ad valorem”. A history of all financing transactions related to the arena is presented here for informational purposes:

The TSA issued its \$27,685,000 Special Purpose Bonds, Series 1995 (the 1995 County-supported Bonds), and its \$17,020,000 Taxable Surcharge Bonds, Series 1995 (the 1995 Surcharge Bonds) in order to finance a portion of the cost to construct the multipurpose arena then known as the Ice Palace. The 1995 Surcharge Bonds were subsequently refunded for debt service savings by the County’s Arena Refunding Revenue Bonds, Series 2005 (the 2005 Bonds). The 2005 Bonds are secured by a covenant to budget and appropriation of County non-ad valorem revenues. The 5th Cent Tourist Development Tax is the primary payment source for the Series 2005 Bonds.

The 1995 County-supported Bonds were refunded for debt service savings by TSA’s \$30,185,000 County Interlocal Payments Refunding Revenue Bonds, Series 1998 (the 1998 Bonds). The 1998 bonds were, in turn, refunded by the County-issued Fifth Cent Tourist Development Tax Refunding Revenue Bonds, Series 2006A (the Series 2006A Bonds). In addition, on December 19, 2006, the County also issued new money bonds, the Fifth Cent Tourist Development Tax Improvement Revenue Bonds, Series 2006B (the Series 2006B Bonds), to pay for certain capital improvements to the arena. The 5th Cent Tourist Development Tax is the sole security pledge and payment source for the outstanding Series 2006A Bonds. The above referenced Series 2006B Bonds have been paid off.

The County expects that the 5th Cent Tourist Tax will produce sufficient revenues to pay debt service on the outstanding Series 2005 and 2006A bonds.

STADIUM BONDS

Currently, the TSA has two debt issues outstanding, both issued in 2015, that are related to Raymond James Stadium (the community stadium): the **Series 2015 Tampa Sports Authority Florida Sales Tax Payments Refunding Revenue Bonds (Stadium Project)** (the “2015 FST Bonds”), and the **Series 2015 Tampa Sports Authority Local Option Sales Tax Refunding Revenue Bonds** (the “2015 LOST Bonds”). In addition, the County has issued direct debt to refund a portion of the TSA’s outstanding stadium debt and

to raise money for certain other capital projects. A history of the TSA transactions related to the stadium is presented here for informational purposes.

On July 10, 1997, the TSA issued three series of bonds as part of the plan of finance for the construction of a new professional sports franchise community stadium: the Series 1997 Local Option Sales Tax Revenue Bonds (Stadium Project) (the “1997 LOST Bonds”), the Series 1997 Florida Sales Tax Payments Revenue Bonds (Stadium Project) (the “1997 FST Bonds”), and the Series 1997B Tourist Development Tax Revenue Bonds (Stadium Project) (the “1997B TDT Bonds”). The 1997 LOST Bonds, the 1997 FST Bonds, and the 1997B TDT Bonds have since been refunded. (The TSA also issued its Series 1997A Tourist Development Tax Revenue Bonds on July 10, 1997, for the purpose of refunding its outstanding Series 1977 Refunding Revenue Bonds. The Series 1997A Bonds were not issued as part of the plan of finance for the construction of the new community stadium.)

The 1997 LOST Bonds were issued in the amount of \$148,945,000 to partially fund the acquisition, construction and equipping of a new professional sports franchise stadium and related parking facilities, as well as demolition of the then-existing stadium. The Bonds were secured by and repaid from CIT revenues. The 1997 LOST Bonds were subsequently refunded in November 2005 by the TSA Series 2005 LOST Bonds in the amount of \$114,865,000 (the “2005 LOST Bonds”); the 2005 LOST Bonds were subsequently refunded in January 2015 by the TSA Series 2015 LOST Bonds in the amount of \$63,020,000.

The 1997 FST Bonds were issued in the amount of \$30,010,000 to partially fund the acquisition, construction and equipping of a new professional sports franchise stadium and related parking facilities. The Bonds were secured by and repaid from sales tax revenues distributable to the County by the State of Florida pursuant to Sections 288.1162 and 212.20(6)(g)5.a, Florida Statutes, as amended. The 1997 FST Bonds were subsequently refunded in November 2005 by the TSA Series 2005 FST Bonds in the amount of \$27,015,000; the 2005 FST Bonds were subsequently refunded in January 2015 by the TSA Series 2015 FST Bonds in the amount of \$19,240,000.

The 1997B TDT Bonds were issued in the amount of \$11,190,000 to partially finance the acquisition, construction and equipping of a new professional sports franchise stadium and related parking facilities, as well as demolition of the then-existing stadium. The Bonds were secured by and repaid from an additional one percent tourist development tax levied by the County pursuant to Section 125.0104(3)(l), Florida Statutes (the 4th Cent of the County’s levied Tourist Development Tax). The 1997B TDT Bonds were subsequently refunded in December 2006 by the County’s Series 2006 Fourth Cent Tourist Development Tax Refunding and Improvement Revenue Bonds in the amount of \$18,270,000 (the “2006 TDT Bonds”). In addition to providing the funds necessary to refund the 1997B TDT Bonds, the 2006 TDT Bonds provided the County with funding necessary to finance the acquisition and/or construction of certain capital improvements to Steinbrenner Field (formerly known as “Legends Field”) and to fund a grant to the City of Tampa to pay for certain capital improvements to the Tampa Convention Center. The 4th Cent Tourist Development Tax is the sole security pledge and payment source for the 2006 TDT Bonds. Please see Revenue Bonds: Non-Enterprise/Non-Ad Valorem for more details on the 2006 TDT Bonds.

8. Special Assessment Revenue Bonds

HillsboroughCounty
GOVERNMENT
Florida

SPECIAL ASSESSMENT REVENUE BONDS

The following Special Assessment bonds were issued by the County; however, they are not considered “County debt” because they are secured solely by special assessments and liens on the property comprising the respective assessment districts which benefit from the improvements funded by the debt. Accordingly, the following debt is not included in any of the debt summaries presented earlier in this report.

WATER AND WASTEWATER

During fiscal 2015, the County redeemed its Reclaimed Water Special Assessment Revenue Bonds, Series 2000 as well as its Capacity Assessment Special Assessment Revenue Bonds, Series 2000. In addition, the County refunded its Capacity Assessment Special Assessment Revenue Bonds, Series 2006 for debt service savings. Special assessment debt is not considered to be “County debt” because it is secured solely by special assessments and liens on the property comprising the respective assessment districts which benefit from the improvements funded by the debt. Accordingly, special assessment debt is not included in any of the debt summaries presented earlier in this report.

The Capacity Assessment Special Assessment Refunding Revenue Note, Series 2015 was issued in the amount of \$42,835,000 on September 4, 2015. The Series 2015 Note was issued to advance refund the outstanding Capacity Assessment Special Assessment Revenue Bonds, Series 2006. The Series 2015 Note is payable solely from non-ad valorem assessments levied and collected annually in conjunction with real property taxes.

**Appendix A:
Terminology of Debt Types Issued by the County**

HillsboroughCounty
GOVERNMENT
Florida

TYPES OF DEBT ISSUED BY THE COUNTY

REVENUE DEBT: BONDS, NOTES AND GOVERNMENTAL LOANS

The issuance of revenue debt is usually subject to fewer and less severe restrictions than are imposed on general obligation debt. This is because the purpose of such restrictions is to minimize the loss of popular control over the public purse (i.e., to protect future taxpayers against heavy tax burdens they must bear without their consent). Since the County cannot be compelled to levy taxes or fees, other than those specific taxes or fees pledged to revenue debt, future taxpayers are not burdened with the debt service associated with revenue debt. Therefore, the same level of restrictions is not necessary. Nevertheless, in the case where a revenue source such as a sales tax or franchise fee flows to the General Fund to offset operating expenses, the utilization of such revenues as a security pledge for bond indebtedness will have a direct impact on General Fund revenues. Thus, in order to maintain the same level of general services, the issuer may need to identify other supplemental revenues or reduce operating costs.

Self-Supporting Revenue Debt. The source of funds supporting an issuance of self-supporting revenue debt is usually the receipts from the operation of a facility or enterprise (e.g. a solid waste resource recovery facility or utility system) built with bond proceeds. As such revenues are received, they immediately become subject to the pledge established by the indenture or resolution that such revenues are received by the issuer to: (i) be held in trust for the benefit of the bond or note holder; and, (ii) be applied solely as specified in the indenture or resolution. In accordance with this quasi-fiduciary relationship, it is provided that, upon receipt of the revenues, they are to be deposited into a Trust Fund which is usually deemed the "Revenue Fund."

As stated above, repayment of revenue debt is dependent upon a particular source of funds, not upon any general governmental commitment to provide the amount needed for payment. Therefore, it is essential that the funds flowing from such a revenue source be allocated exclusively for such payment, for building required reserves, and for operating the project or program which generated the funds. Surplus funds may be applied for other uses. Such exclusive allocation is achieved by means of: (1) formally pledging all funds flowing from the source as security for the bonds or notes; (2) specifying the manner of its application, including restrictions on the alternative application of any surplus; and, (3) covenanting not to apply any such funds except as so specified. Most bond or note resolutions include a requirement that the issuer (such as the County's water/wastewater utility system) charge rates high enough to produce system revenues sufficient to pay not only operating expenses and debt service, but also to provide an adequate margin to protect bond or note holders should there be an unforeseen revenue shortfall. Most such margins are in the range of 25% to 40% of annual debt service, depending primarily on the strength of the revenue source.

Commercial Paper (CP). The most common type of CP is short-term, unsecured promissory notes issued by organizations of recognized credit quality. While corporations usually issue CP on an unsecured basis, legal differences normally require that municipal issuers secure CP with a specific pledge. CP is issuable in virtually any amount at any time on very short notice. The dollar amount of each maturity is usually tailored to the needs of the issuer on the date the notes are brought to market. Virtually all municipal CP is supported by a credit facility from a commercial bank (e.g. letter of credit). The funds available under this credit facility are generally sufficient to pay the outstanding principal of and interest on the CP. Bank-support facilities can take various forms.

Credit ratings by at least one of the major rating agencies (Moody's, Standard & Poor's, Fitch) are essential to enable a CP issuer to reach a broad range of investors, obtain competitive interest rates and be able to issue CP in amounts consistent with its overall program. The best or "prime" ratings are P-1 by Moody's, A-1+ by Standard and Poor's and F-1+ by Fitch, which are the ratings of the County's CP.

CP has many advantages when used in a suitable borrowing situation. Relative to other short-term financing options, the short average maturity of CP results in significant interest rate savings in most economic environments. The

effect of this lower average interest rate is a decrease in the overall borrowing costs of the County. Principal amounts and maturities ranging from 1 to 270 days can be tailored to meet the County's changing financial needs in amounts up to the Board authorized limit established by the CP resolution. Finally, CP has the lowest issuance costs of any long- or short-term, public or private placement financing alternative.

\$67,800,000 Series 2015 CST Revenue Bond	-	-	4,053	-
\$139,215,000 Series 2015 CIT Refunding Bonds	-	-	-	<u>20,726</u>
Total Maximum Annual Debt Service	\$ 10,026	\$ -	\$ 4,053	\$ 47,999
Available Revenues (5)	\$ 85,690	\$ 6,752	\$ 10,502	\$ 6,926
Estimated Unused Revenue Debt Capacity (6,7)	\$ 922,518	\$ 89,217	\$ 63,599	\$ 38,670

(1) Assumes a 1.35 X Coverage Requirement.

(2) Assumes a 1.10 X Coverage Requirement; Pursuant to the Revenue Sharing Act, commencing July 1, 2004, the County can assign, pledge or set aside as a trust for debt service on bonds or other indebtedness, an amount up to 50% of its Revenue Sharing Moneys received in the prior state fiscal year.

(3) Source: Hillsborough County Clerk of the Circuit Court.

(4) The County's share of such revenues is determined by Florida Statutes 218.62 to be about 73.64% of collections after the following deductions: 25% of total collections are paid to the Hillsborough County School District and, on average, about \$9,773,000 is paid to the Tampa Sports Authority, all as set forth in the Interlocal Agreement for Distribution of Community Investment Tax dated July 17, 1996 between the County, the School District, and the Cities of Tampa, Temple Terrace and Plant City.

(5) Revenues less Maximum Annual Debt Service.

(6) Assumes AAA/AAA rated debt with average interest rate of 5.5%. Estimated Unused Revenue Debt Capacity is determined by dividing Available Revenues by the applicable coverage factor, and then calculating the amount of debt which can be supported by those revenues assuming the 5.5% average interest rate and a 30 year amortization of debt for Half-Cent Sales Tax, Communication Services Tax and for Guaranteed Entitlement, and 10 years for CIT.

(7) Capacity exceeds amount available to fund projects by amount necessary to pay financing costs and fund reserve accounts.

(8) Local government half-cent sales tax revenues are used to pay debt service on other debt including bonds secured by the County's covenant to budget and appropriate from non-ad valorem revenues, such as: the Capital Improvement Non-Ad Valorem Refunding Revenue Bonds, Series 2008 (Warehouse and Sheriff's Facilities Project) and the Tax-Exempt Commercial Paper.

(9) The Series 2005 bonds are secured by a lien on the CIT and Court Surcharges. Pursuant to the 2005 bond resolution, the CIT lien may be released if Court Surcharges are sufficient to provide debt service coverage of at least 1.50x for three consecutive years and that the CIT has not been used to make any debt service payments during such three years.

(10) Assumes a 1.50 X Coverage Requirement; only 62.5% of the Communications Services Tax is available for additional bonding capacity given 37.5% of it has been committed for public safety uses.

1996/2006 CIP Non-Ad Valorem Refund. Rev. Bonds (MOSI & County Ctr) ⁽⁹⁾	\$ -	\$ -	\$ -	\$ -	\$ -
1998/2008 CIP Non-Ad Valorem Refund. Rev. Bonds ⁽¹⁰⁾	1,442	1,442	1,442	1,442	1,442
2000 CIP Commercial Paper Program ⁽¹¹⁾	6,933	8,666	6,994	5,809	3,254
1995/2005 Tampa Bay Arena Refunding Revenue Bonds ⁽¹²⁾	1,334	1,334	1,309	1,309	1,307
Total	\$ 9,709	\$ 11,442	\$ 9,745	\$ 8,560	\$ 6,003
Debt Service Coverage	10.76 x	8.73 x	10.68 x	12.48 x	19.17 x

(1) Does not include the Community Investment Tax proceeds which are payable to the County nor any indebtedness pledging the Community Investment Tax proceeds. The County has, by ordinance, limited the use of such funds to projects expressly approved by the Board as specified in the procedure set forth in the enacting ordinance.

(2) The amounts shown are the county's major sources of Non-Ad Valorem Revenues that are available for the payment of debt service on the outstanding Bonds. In addition, the County has other significant non-ad valorem revenue sources; however, these revenues are either volatile on an annual basis or limited as to their use.

(3) The amount shown is total Half-Cent Sales Tax collections.

(4) The amounts shown are 62.5% of total CST collections; the remaining 37.5% of annual collections have been specifically allocated to public safety by the Board of County Commissioners until such time the Board votes otherwise.

(5) The Clerk of the Circuit Court has no expectation that this revenue source will continue in the future.

(6) The amount shown is total Fifth Cent TDT collections less maximum annual debt service on Fifth Cent TDT pledged bonds. This excess may not be used to pay any of the items in the "Non-Ad Valorem Maximum Annual Debt Service" section of the table except for the 1995/2005 Tampa Bay Arena Refunding Revenue Bonds and is not legally available to pay debt service on the Capital Improvement Non-Ad Valorem Refunding Revenue Bonds (Warehouse and Sheriff's Facilities Project), Series 2008 (the "Series 2008 Bonds").

(7) Upon the issuance of the 2005 Bonds the surcharges were included as part of the lease payments paid to the County for use of the Arena. Due to a cap on the amount of surcharges that may be collected without impacting the tax exempt status of the 2005 Bonds, the County anticipates cessation of such payments by the TSA in the future, the timing of which depends on the rate of receipt of such revenues. The Surcharge has been revenue of the TSA and thus is not shown in the County's audited Financial Statements.

(8) Consists of County debt issues that are secured by a covenant to budget and appropriate legally available County Non-ad Valorem revenue, which include the County's obligations under certain Interlocal Agreements. Debt service coverage for the year ended September 30, 2015 is not materially affected by debt service on bonds delivered after 9/30/2015 either to refund any of this debt, to refund debt for which debt service has been netted from major non-ad valorem revenue shown above, or to repay debt issued to fund new projects.

(9) The Capital Improvement Program Refunding Revenue Bonds, Series 2006 refunded the 1996 Bonds in May 2006 and were defeased in January 2010.

(10) The 1998 Bonds were refunded in May 2008 by the 2008 Capital Improvement Non-Ad Valorem Refunding Revenue Bonds (Warehouse and Sheriff's Facilities Projects)

(11) For the purpose of calculating maximum annual debt service, outstanding commercial paper is amortized over 30 years utilizing the Bond Buyer Revenue Bond Index.

(12) The 1995 Bonds were refunded in June 2005 by the 2005 Tampa Bay Arena Refunding Revenue Bonds.

Fitch Ratings – Rating Definitions

Fitch investment grade bond ratings provide a guide to investors in determining the credit risk associated with a particular security. The ratings represent Fitch’s assessment of the issuer’s ability to meet the obligations of a specific debt issue or class of debt in a timely manner.

The rating takes into consideration special features of the issue, its relationship to other obligations of the issuer, the current and prospective financial condition and operating performance of the issuer and guarantor, as well as the economic and political environments that might affect the issuer’s future financial strength and credit quality.

Fitch ratings do not reflect any credit enhancement that may be provided by insurance policies or financial guaranties unless otherwise indicated.

Bonds that have the same rating are of similar but not necessarily identical credit quality since the rating categories do not fully reflect small differences in the degree of credit risk.

Fitch ratings are not recommendations to buy, sell or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect of any security.

Fitch ratings are based on information obtained from issuers, other obligors, underwriters, their experts, and other sources Fitch believes to be reliable. Fitch does not audit or verify the truth or accuracy of such information. Ratings may be changed, suspended or withdrawn as a result of changes in, or the unavailability of, information or for other reasons.

	Fitch Investment Grade Bond Ratings:
AAA	Bonds considered to be investment grade and of the highest credit quality. The obligor has an exceptionally strong ability to pay interest and repay principal, which is unlikely to be affected by reasonably foreseeable events.
AA/ F-1+	The obligor’s ability to pay interest and repay principal is very strong, although not quite as strong as bonds rated ‘AAA’. Bonds rated in the ‘AAA’ and ‘AA’ categories are not significantly vulnerable to foreseeable future developments. Short-term debt of this grade is generally rated “F-1+”.
A	Bonds considered to be investment grade and of high credit quality. The obligor’s ability to pay interest and repay principal is considered to be strong, but may be more vulnerable to adverse changes in economic conditions and circumstances than bonds with higher ratings.
BBB	The obligor’s ability to pay interest and repay principal is considered to be adequate. Adverse changes in economic conditions and circumstances, however, are more likely to have adverse impact on these bonds and, therefore, impair timely payment. The likelihood that the ratings of these bonds will fall below investment grade is higher than for bonds with higher ratings.
+/-	Plus and minus signs are used with a rating symbol to indicate the relative position of a credit within the rating category. Plus and minus signs, however, are not used in the ‘AAA’ category.
NR	Indicates that Fitch does not rate the specific issue.
Conditional	A conditional rating is premised on the successful completion of a project or the occurrence of a specific event.
Suspended	A rating is suspended when Fitch deems the amount of information available from the issuer to be inadequate for rating purposes.
Withdrawn	A rating will be withdrawn when an issue matures or is called or refinanced, and, at Fitch’s discretion, when an issuer fails to furnish proper and timely information.
FitchAlert	Ratings are placed on FitchAlert to notify investors of an occurrence that is likely to result in a rating change and the likely direction of such change. These are designated as Positive, indicating a potential upgrade, Negative, for potential downgrade, or Evolving, where ratings may be raised or lowered. FitchAlert is relatively short-term and should be resolved within 12 months.
Ratings Outlook	An outlook is used to describe the most likely direction of any rating change over the intermediate term. It is described as Positive or Negative. The absence of a designation indicates a stable outlook.

Moody's Investors Service – Rating Definitions

There are nine basic rating categories for long-term obligations. They range from Aaa (highest quality) to C (lowest quality).

Moody's applies numerical modifiers 1, 2, and 3 in each generic rating classification from Aa to Caa. The Modifier 1 indicates that the issue ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates that the issue ranks in the lower end of its generic category. Advance refunded issues that are secured by escrowed funds held in cash, held in trust, reinvested in direct non-callable United States government obligations or non-callable obligations unconditionally guaranteed by the United States government are identified with a # (number) symbol, e.g. # Aaa.

Aaa. Bonds that are rate Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt-edged". Interest payments are protected by a large or exceptionally stable margin, and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

Aa. Bonds are rated Aa are judged to be of high quality by all standards. Together with the Aaa group, they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities, or fluctuation of protective elements may be of greater amplitude, or there may be other elements present that make the long-term risks appear somewhat larger than in Aaa securities.

A. Bonds that are rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate, but elements may be present that suggest a susceptibility to impairment at some time in the future.

Baa. Bonds that are rated Baa are considered to be medium grade debt obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

Ba. Bonds that are rated Ba are judged to have speculative elements; their future cannot be considered as well-assured. Often the protection of interest and principal payments may be very moderate and thereby not well-safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

B. Bonds that are rated B generally lack characteristics of the desirable investment. Assurance of interest and principal payments or maintenance of other terms of the contract over any long period of time may be small.

Caa. Bonds that are rated Caa are of poor standing. Such issues may be in default or there may be present elements of danger with respect to principal or interest.

Ca. Bonds that are rated Ca represent obligations that are speculative in a high degree. Such issues are often in default or having other marked shortcomings.

C. Bonds that are rated C are the lowest-rated class of bonds, and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.

Con. (...) Bonds for which the security depends upon the completion of some act or the fulfillment of some condition are rated conditionally. These bonds are secured by: (a) earnings of projects under construction, (b) earnings of projects unseasoned in operating experience, (c) rentals that begin when facilities are completed, or (d) payments to which some other limiting condition attaches. Parenthetical rating denotes probably credit stature upon completion of construction or elimination of basis of condition.

Standard & Poor's Ratings Service – Issue Credit Ratings

A Standard & Poor's issue credit rating is a current opinion of the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, issuers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The issue credit rating is not a recommendation to purchase, sell, or hold a financial obligation, inasmuch as it does not comment as to market price or suitability for a particular investor.

Issue credit ratings are based on current information furnished by the obligors or obtained by Standard & Poor's from other sources it considers reliable. Standard & Poor's does not perform an audit in connection with any credit rating and may, on occasion, rely on unaudited financial information. Credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days – including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. The result is a dual rating, in which the short-term rating addresses the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

Long-term Issue Credit Ratings

Issue credit ratings are based, in varying degrees, on the following considerations:

1. Likelihood of payment – capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
2. Nature and provisions of the obligation;
3. Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

The issue rating definitions are expressed in terms of default risk. As such, they pertain to senior obligations of an entity. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation applies when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.) Accordingly, in the case of junior debt, the rating may not conform exactly to the category definition.

AAA. An obligation rated 'AAA' has the highest rating assigned by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA. An obligation rated 'AA' differs from the highest rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A. An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB. An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB. An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B. An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC. An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC. An obligation rated 'CC' is currently vulnerable to nonpayment.

C. A subordinated debt or preferred stock obligation rated 'C' is CURRENTLY HIGHLY VULNERABLE to nonpayment. The 'C' rating may be used to cover a situation where a bankruptcy petition has been filed or similar action taken, but payments on this obligation are being continued. A 'C' also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

D. An obligation rated 'D' is in payment default. The 'D' rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if on an obligation are jeopardized.

Plus (+) or minus (-). The ratings from 'AA' to 'CCC' may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

R. This symbol is attached to the ratings of instruments with significant noncredit risks. It highlights risks to principal or volatility of expected returns which are not addressed in the credit rating. Examples include: obligations linked or indexed to equities, currencies, or commodities; obligations exposed to severe prepayment risk – such as interest-only or principal-only mortgage securities; and obligations with unusually risky interest terms, such as inverse floaters.

N.R. This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

Short-Term Issue Credit Ratings

A-1. A short-term obligation rated 'A-1' is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2. A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3. A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B. A short-term obligation rated 'B' is regarded as having significant speculative characteristics. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

C. A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D. A short-term obligation rated 'D' is in payment default. The 'D' rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action of payments on an obligation are jeopardized.

Local Currency and Foreign Currency Risks

Country risk considerations are a standard part of Standard & Poor's analysis for credit ratings on any issuer or issue. Currency of repayment is a key factor in this analysis. An obligor's capacity to repay foreign currency obligations may be lower than its capacity to repay obligations in its local currency due to the sovereign government's own relatively lower capacity to repay external versus domestic debt. These sovereign risk considerations are incorporated in the debt ratings assigned to specific issues. Foreign currency issuer ratings are also distinguished from local currency issuer ratings to identify those instances where sovereign risks make them different for the same issuer.
