COUNTY AUDIT DEPARTMENT

REPORT # 376

QUARTERLY BOCC FOLLOW-UP REPORT

FEBRUARY 5, 2020
February 5, 2020

The Honorable Lesley “Les” Miller, Jr., Chairman
The Honorable Ken Hagan
The Honorable Pat Kemp
The Honorable Sandra L. Murman
The Honorable Kimberly Overman
The Honorable Mariella Smith
The Honorable Stacy R. White

Dear Chairman Miller and Commissioners:

The County Audit Department operates in compliance with the standards set forth in the International Professional Practices Framework as well as Government Auditing Standards. These standards require that County Audit communicate the results of audit engagements to the appropriate parties and monitor the action taken by management in response to any audit recommendation.

Attached is the quarterly report on the status of all management corrective action plans as of the end of the first quarter of fiscal year 2020. Addressing open recommendations will enhance the Board of County Commissioners’ overall operations and mitigate risks to the organization. For the quarter ended December 31, 2019, the County Audit Department monitored management action for eight (8) recommendations. Two recommendations were implemented and tracking has been closed. The remaining six will carry forward to the second quarter of fiscal year 2020. See Attachment 1

I appreciate this opportunity to be of service to the Board of County Commissioners. I am happy to address any questions that you may have or furnish additional information if desired.

Sincerely,

Heidi Pinner, CIA, CISA, CFE, CRMA
Senior Director, County Audit

<td>9-1-1 Agency - Address Data</td>
<td>To ensure that the address data utilized by the various systems and agencies throughout Hillsborough County remains consistent and reliable, management should 1) Investigate the inconsistencies identified by the Audit Team and determine if any corrections to the data are needed in either the 9-1-1 database or GIS; 2) Determine the root cause of such inconsistencies and implement mitigating controls to address any underlying issues; and 3) Implement holistic validation or monitoring controls to routinely compare data between the 9-1-1 database and the County GIS system.</td>
